WHY LACE IS COSTLY.

The finest specimen of Brussels lace is so complicated as to require the labor of seven persons on one piece, and each operative is employed at distinct features of the work. The thread used is of exquisite fineness, which is spun in dark, underground rooms, where it is sufficiently moist to prevent the thread from separating. It is so delicate as scarcely to be seen, and the room is so arranged that all the light shall fall upon the work. It is such material that renders the genuine Brussels ground so costly. On a piece of Valenciennes not two inches wide, from 200 to 300 bobbins are sometimes used; and for a larger width, as many as 800 on the same pillow.

Nebraska is making strenuous efforts to secure European immigrants, and Nebraska will be a great State in ten years if it perseveres in that policy, with honest officials to manage the business. Utah, with less than the usual attractions to draw the ordinary speculator towards it, by an admirable immigration system in twenty years laid a foundation of permanent prosperity which will be better appreciated a few years hence than it is to-day.

THE WASHINGTON "Chronicle" says: "The Judges of the Supreme Court of the District of Columbia, in revising the new code prepared by the commission to codify the laws of the District, have ordered the word 'male,' in connection with admission to the bar, to be stricken out, thus opening the way to women to practice in the courts here."

WOMAN'S EXPONENT.

A UTAH LADIES' JOURNAL.

The women of Utah to-day occupy a position which attracts the attention of intelligent thinking men and women everywhere. They are engaged in the practical solution of some of the greatest social and moral problems of the age, and a powerful interest is manifested throughout the United States, and, it may be said, the entire civilized world, to learn from reliable sources the views honestly entertained by them on these questions.

They have been grossly misrepresented through the press, by active enemies who permit no opportunity to pass of maligning and slandering them; and with but limited opportunity of appealing to the intelligence and candor of their fellow countrymen and countrywomen in reply.

Who are so well able to speak for the women of Utah as the women of Utah themselves? "It is better to represent ourselves than to be misrepresented by others!"

For these reasons, and that women may help each other by the diffusion of knowledge and information possessed by many and suitable to all, the publication of WOMAN'S EXPONENT, a journal owned by, controlled by and edited by Utah ladies, has been commenced.

The aim of this journal will be to discuss every subject interesting and valuable to women. It will contain a brief and graphic summary of current news local and general, household hints, educational matters, articles on health and dress, correspondence, editorials on leading topics of interest suitable to its columns and miscellaneous reading.

It will aim to defend the right, inculcate sound principles, and disseminate useful knowledge.

Utah, in its Female Relief Societies, has the best organized benevolent institution of the age; yet, but little is known of the self-sacrificing labors of these Societies. In WOMAN'S EXPONENT a department will be devoted to reports of their meetings and other matters of interest connected with their workings; and to this end the Presidents and Secretaries of the various Societies throughout the Territory are requested to furnish communications which will receive due attention.

Miss Eliza R Snow, President of the entire Female Relief Societies, cordially approves of the journal, and will be a contributor to it as she has leisure from her numerous duties.

WOMAN'S EXPONENT will be published semi-monthly, each number containing eight pages, quarto.

The following low rates will place it within the reach of all, and the hope is that it may be made so valuable that it will be found in every family in Utah.
